

## | HIRING ASSISTANT

# MAKES FINDING & HIRING TALENT SIMPLE.

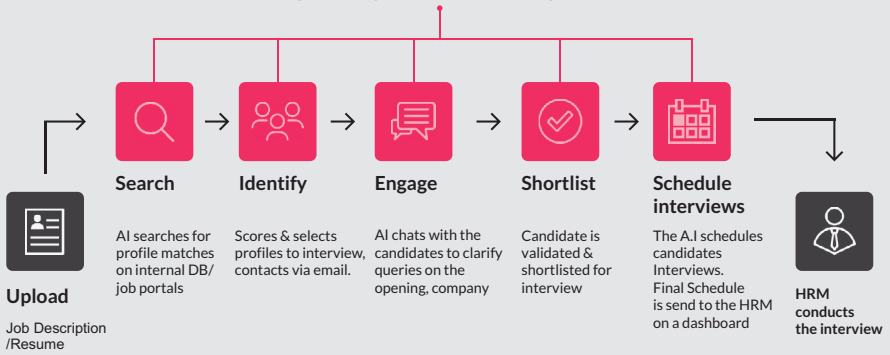

NLPBOTS HR Assistant helps make the hiring process extremely efficient and effective. The system integrates with internal DBs, external job portals, etc. to pull out and read through candidate profile information, in order to qualify and identify relevant candidates for the job.

The system then interacts with the candidates to answers their queries about the opening or the company, followed by scheduling interviews for those that are shortlisted.

## KEY FEATURES

- Resume & Social Media Parsing
- Intelligent Chat bot
- Automated scheduling & emails
- Save Time & Effort
- Qualify & Shortlist Automatically
- Get the Best Matches
- Dashboard

### Completely Automated process

## | SKILLING ASSISTANT

# NURTURE AND GROW YOUR WORKFORCE

NLPBOTS powers SkillsAlpha, a product that enables employee skilling and career path focused growth management within the enterprise. A bot engages every employee as their personal skilling assistant, recommending appropriate skills and goals to meet their aspirations. Employees can discover trending skills, look at peer driven career paths, enquire about alternative personal goals, etc. by interacting with the bot at all times.

## KEY FEATURES

- Integrates with LMS
- Employee career mapping
- Employee Skilling journey
- Engage Employees
- Upskill Taskforce
- Build Retention
